SECTION 7 – Restriction of access at the viva (to be completed if appropriate)

Restriction of access at the viva			
<p>In the case of theses in Biological Sciences, Clinical Medicine, Mathematical Sciences, Physical Sciences, Physiological Sciences, and Psychological Studies, a candidate, supervisor or department may request that the attendance of any person or all persons at an viva (other than the candidate and the examiners) should be forbidden or subject to such conditions as the Proctors may impose.</p> <p>Applications should indicate the reason for the request, e.g. that the presence of someone other than the examiners would put at risk confidential material or invalidate an application for a patent on a product or process covered by the thesis, and provide sufficient information for an informed judgement to be made. Applications made at the request of the candidate should be supported by the supervisor.</p>			
I request that access to the viva should be restricted for the following reason(s): <i>Please supply supplementary material if necessary.</i>

In the case of applications made by the candidate:	
I support the above application for the restriction of access to the viva for the following reason(s):	
Signature of supervisor:	

GSO.3 (optional – Time Specific Examination Request)

This form should only be completed and included in the GSO.3 where an examination result is required by a specific date, and for exceptional circumstances. The form should not be used to specify certain dates when an examination is preferred / not preferred – this should be negotiated directly in consultation with the examiners.

SECTION 8a – Application for Time Specific Examination

Applications can only be agreed for exceptional reasons, since the availability of examiners of national and international reputation is likely to be limited. Students and supervisors should not expect that applications for a time specific viva will be approved automatically.

Candidates may apply to the relevant board for the viva to be held not later than a certain date. Please note, the date cannot be earlier than <u>one calendar month after the date on which the thesis has been received at the Examination Schools or after the date on which the examiners have agreed to act, whichever is the later</u> . Also the date will depend on the availability of the examiners.	
Date by when you wish to have your viva:	
Reason for request: (please continue on separate sheet if necessary)	

SECTION 8b – to be completed by the supervisor

Supervisor's remarks: (please continue on separate sheet if necessary)

Signature of DGS:		Date:	
Full Name:			

GSO.3 (optional – Time Specific Examination Request)

Candidates may apply to the board of the faculty or department concerned for the oral examination to be held not later than a certain date, provided that this date shall not be earlier than one calendar month after the date on which the thesis has been received at the Examination Schools or after the date on which the examiners have agreed to act, whichever is the later. If the board is satisfied that there are special circumstances justifying this application, it will ask the examiners to make arrangements to enable the oral examination to be held within the period specified.

In such cases the examiners, when invited to act, will be informed that the candidate has asked that the oral examination should be held not later than a certain date, and acceptance of the invitation to examine will be on the understanding that they would seek to meet this request. If it is not practical to meet the student's request, then the board/department shall decide how to proceed.

Note: Students must ensure that they can be readily contacted by the Research Examinations Team so that, if examiners are unable to meet a request for a viva by a certain date, alternative arrangements can be discussed.

Where students wish to apply for a time-specific examination, the form and the application for the appointment of examiners (GSO.3) should be submitted BEFORE the thesis so that the necessary approvals can be given in good time.
